

Snap-in holder

Mounting solution for TWN3 and TWN4 MultiTech desktop readers

Snap-in holder
(exemplary illustrations)

The ELATEC product portfolio also contains a wide range of accessories, like wall holders, additional cables or RFID antennas, that are perfectly suited for use with the different ELATEC devices. As part of the accessory portfolio, ELATEC offers different types of holder mounting kits to attach their devices to flat surfaces, for instance bracket and snap-in holders. Both allow right- and left-side mounting of a reader depending on application requirements.

The snap-in holder is the simplest accessory for attaching an RFID reader to a flat surface. It is available in two different colors and can be fixed with either adhesive pads or screws.

Special features:

- + Compatible with all ELATEC RFID desktop readers of the TWN3 and TWN4 MultiTech families
- + Two mounting options (adhesive pads or screws) for more flexibility
