

# FastLoop —embedded high-speed technology

... the easy way to FPGA-solutions

- Speediest execution of programs written in a very high-level programming language.
- Fastest reaction to external and internal events.
- Speediest data processing.
- Simplest development of speediest complex PLC applications.
- One program language for FPGA and microprocessors.

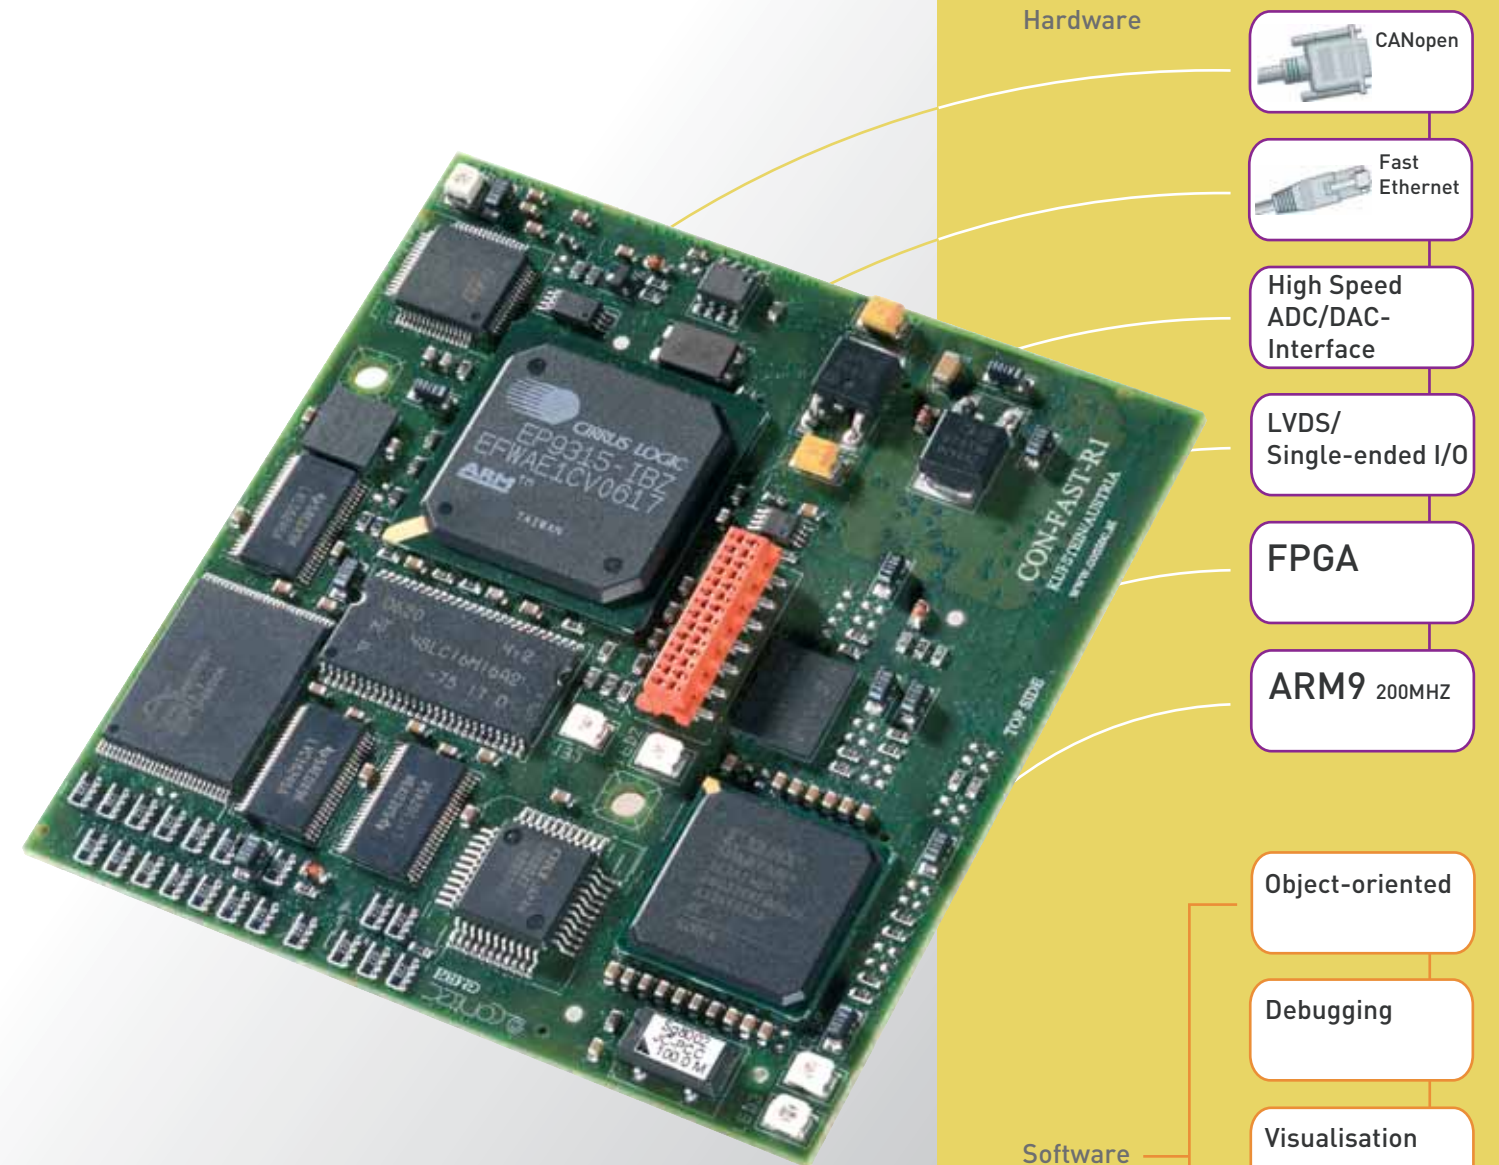

... der effizienteste Weg zu FPGA-Lösungen

- Schnellste Abarbeitung von Programmen, die in Hochsprache programmiert sind.
- Schnellste Reaktionen auf externe und interne Ereignisse.
- Schnellste Berechnungen & Datenverarbeitung.
- Einfachstes Entwickeln schnellster und komplexester Anwendungen.
- Eine Programmiersprache für FPGA und Mikroprozessoren.
